👤 PROFILE

Motivated AI and Machine Learning Engineering student with proficiency in Python, Java, and C. Strong foundation in programming fundamentals and computational thinking, with growing expertise in machine learning concepts and applications. Seeking opportunities to contribute technical skills to challenging AI/ML projects while advancing knowledge in cutting-edge technologies and industry best practices.

🌐 LANGUAGES

English

Hindi/Urdu

Kannada

🎓 EDUCATION

Bachelor of Engineering

Aditya College of Engineering and Technology ✉
10/2023 – Present | Bangalore, India

PCMC

Cathedral Composite Pre-University College
09/2021 – 03/2023 | Bangalore, India

ICSE

Baldwin Boys' High School
01/2009 – 03/2021 | Bangalore, India

🧠 SKILLS

- C Programming
- Python
- Java

🔑 INTERESTS

- AI
- Problem Solving
- Football

📁 PROJECTS

Nourish Connect ✉

A Smart Food Donation WebApp

- Developed a Smart Food Donation WebApp to connect food donors with NGOs and needy people
- Enables users to register surplus food, request donations, and manage pickups easily
- Supports features like user login, real-time updates, and simple food listing interface
- Aims to reduce food wastage and support hunger relief through a digital platform
- Focused on social impact with efficient and user friendly design
